Dear Mayor Rowland,

It gives us great pleasure to announce that the City of Cleveland has been chosen to receive the 2016 Community Partnership Award presented by The Tennessee Environmental Health Association. This award is given to an individual or organization that has made significant impact either on the profession of environmental health or the environmental health of the community. This is the first year that this award has been presented.

These many projects combined result in an increase in the happiness and general health of the residents of the City of Cleveland.
